## Introduction

Welcome to Edinburgh and Chrissie Hynde's first show in Scotland. Continuing on from her exhibition at the end of last year in London *Hynde Sight 2* introduces a surreal edge that often emerges from Hynde's imagination. New abstract figures playfully disporting themselves, limbs swirling in meditative poses, eggs resting in trees and intense faces appearing out of rocks.

With these new works we have more of Hynde's personal pieces; portraits of friends, guitars and dogs alongside her evocative portraits of flowers. We have also selected a sequence of balcony images painted over recent years that lyrically reflect movement and stillness in compositions of iron against stone. And echo the railings of Edinburgh.
